

Riciclaggio cavi elettrici e radiatori - Electric cables and radiators recycling

Riciclaggio RAEE e CAR FLUFF - W.E.E.E Recycling and CAR FLUFF

Riciclaggio metalli non ferrosi - Non-ferrous metals recycling

Riciclaggio materie plastiche - Plastics recycling

Separazione densimetrica a secco - Dry densimetric separation

Riciclaggio inerti e vetro - Aggregates and glass recycling

WIRE PRO LINE

— Standard Line
 — OPTIONAL

RECYCLING SYSTEMS

The Wire Professional unit can process:
Electrical cables (copper and aluminum) both flexible or rigid wire as well as radiators.

Above flow chart is just an example, contact our sales dept. to optimize the process according to your material

WIRE PROFESSIONAL	Length	Width	Height	Weight	Installed Power	Production
WIRE PRO 1000	4000 mm	2000 mm	2000 mm	2900 kg	30 kW	(*)
WIRE PRO 2000	4000 mm	2000 mm	2000 mm	4500 kg	57 kW	(*)
WIRE PRO 3000	4000 mm	2000 mm	2000 mm	6600 kg	102 kW	(*)

(*) Varies according to the kind of processed material. Technical data are subject to change without prior notice.

The advantages and the innovations of this series of machines are:

1. No dust emissions into the atmosphere.
2. Soundproofed (the most soundproofed in their field).
3. Lower energy consumption per ton of grinded cable.
4. Compact sized (little space to install them).
5. Low operating and maintaining costs.
6. Innovative (equipped with an extractable mill for quick maintaining operation)

CE Compliant
Easy maintenance
